

OUR MONEY. OUR VALUES. OUR BANK.

Cutting out the *Wall Street middlemen* will save our city **HUNDREDS OF MILLIONS** of dollars every year, money that will be reclaimed for Angelenos and used to rebuild and regenerate **OUR COMMUNITIES**.

A **PUBLIC BANK** can finance affordable housing, low-interest student loans, public transit, infrastructure, small business loans, schools, clean renewable energy, healthcare and other initiatives to create well-paying **JOB**s and a **STRONG, SUSTAINABLE, REGENERATIVE ECONOMY**.

PUBLIC BANKING WORKS! The publicly-owned Bank of North Dakota is more profitable than *Goldman Sachs* and has a better credit rating than *JPMorgan Chase*. In Germany, public banks are a foundation of the robust economy and are financing the renewable energy revolution.

YES ON B!

Charter Amendment B has been endorsed by the Los Angeles County Democratic Party and public banking is supported by workers unions, firefighters, credit unions, environmental groups, social justice groups, Los Angeles City Council, Democratic Socialists of America, LA County Green Party, political organizations and the California Democratic Party.
